

SCIENTIFIC STUDIES ON MEDITATION ON TWIN HEARTS

Melatonin, the principal hormone produced by the pineal gland, is significantly increased following Meditation on Twin Hearts. Research by Glenn Mendoza, M.D. and Supriya Ghorpadkar. The Center for Pranic Healing, New Jersey, USA.

Serotonin, a neurotransmitter, rises following Meditation on Twin Hearts. Research by Glenn Mendoza, M.D. and Supriya Ghorpadkar. The Center for Pranic Healing, New Jersey, USA.

Betaendorphins and Meditation on Twin Hearts. Research by Glenn Mendoza, M.D. and Supriya Ghorpadkar. The Center for Pranic Healing, New Jersey, USA.

AURA AROUND THE LITTLE FINGER

Before Meditation After Meditation

The GDV images show the bioplasmic energy field around the finger of S.M.P. before meditation, and after doing the Meditation on Twin Hearts.

AURA AROUND ALL TEN FINGERTIPS

Before Meditation After Meditation

The GDV images show the bioplasmic energy field around the fingertips of a subject, before and after the Meditation on Twin Hearts. From this experiment, we can conclude that the energy of a person increases tremendously after the doing the Meditation on Twin Hearts. The Meditation on Twin Hearts has spiritual, psychological and physical benefits.

AURA AROUND THE ENTIRE BODY

Before Meditation After Meditation

The above images show the bioplasmic energy field around the whole body (as computer generated by the GDV camera) of S.M.P. before and after doing the Meditation on Twin Hearts.

(The GDV images were taken by the All India Yoga Vidya Pranic Healing Foundation Trust. Research by Dr. C. Srinidhi and Dr. Vrunda J.P.)
