New regenerative dimension in Serbia
First generation of Pranic Healers in Serbia
Contribution to human health and wellbeing

(Belgrade, 25.05.2008) – Today, in the premises of "Energetic balance" in Belgrade, first generation of Pranic Healers has finished Basic Pranic Healing workshop with great pleasure. Pranic Healing has made this first step through Macedonian Pranic Healing Ass., where the instructor of this workshop Elena Antonovska transferred the knowledge of Master Choa Kok Sui energetic healing to those young PH. After Macedonia where PH is practiced for a few years, Serbia was a logical choice as a ground for spreading this knowledge and experiences, because of huge potential and need for new methods for enhancing the human health.

Pranic Healing is non-touch energetic technology which everyone can learn and practice. With Tibetan background, PH is cooperating for years with conventional medicine, through out the world, enriching and changing people lives, opening for them paths of wellbeing on all levels of life. Based on overall structure of human body and it's natural ability to heal itself, as well on principal of energy transfer from one human being to another, PH accelerates healing process with removing diseased energy and increasing life force or vital energy level in the body. Effects of this energetic technology are more than excellent in treating diseases on all levels: physical, emotional, mental and psychiatric, and it is applied by wide structure of occupations – MD's, chiropractics, lawyers, economists.

Aleksandar Jovanovic as a Pranic Healer also, and a man who applies energetic healing in his work, materialized this mutual initiative, by organizing this workshop, with the goal to bring near, demystify and teach this art and science, which will influence human individual and collective consciousness, making people to see life from a healthier and natural perspective, in respect of existing universal laws, known to all of us, but repressed and forgotten.

Awakening our consciousness about the essence of our existence and return of healthy values is only an addition that PH offers to those who see their lives in more quality, healthy and spiritual light.

Wide specter of activities is planned in respect of PH that will facilitate easier approach to PH knowledge. As Elena Antonovska is licensed instructor for Balkan countries for several level of PH workshops, new workshops are planned from June 2008 already, info talks, meditations, trainings, and much more in organization of "Energetic Balance".

We have to notice that students of this first generation made their first step in PH regenerative dimension with great enthusiasm, filled with new energy and with new look on life and on world. Change is starting from our-self, spreads around us and wider, they will fill their lives with this new and pure energy that touched them and transfer it to everything that surrounds them, enriching their lives in different ways. This energy will bring them inner peace, health, quality relationships, good will, will to do good.

We hope that PH will touch all of you in mutual search for happier life.

Mag. Claudia Dieckmann, PH Instructor for Austria & CEE

EVERYONE CAN BE A MIRACLE-WORKER

The question if people can heal with energy is already past, it is reality. The question that is really important is where is the soul, where can we find it?
I have many times meet people that did not find help with medical doctors. With PH many of the symptoms were gone. Some people call this a miracle, some call it knowledge. Master Choa said that miracles are laws of the nature that we are not even aware of.

October 2009 was the month when Mag. Claudia Dieckmann, PH Instructor for Austria & CEE, from The Institute for Inner Studies in Vienna, visited PH Ass in Macedonia.

This occasion was a good chance to talk to Mag. C. Dieckman, with a primary goal to get more awareness about PH as more and more popular way of energy healing here in MKD.

Mag. Claudia Dieckmann is an economist, with a very successful career in real-estate business. But, she left this business 14 years ago when she started with PH.

RT: First question to her was doing PH instead success in business?

CD: - It is true that I had very successful career as an economist. Working all day, making a lot of money, but I did not have nor time nor person to spend this money with. I was already divorced twice, with empty and unfulfilled life, unhappy... typical modern crisis. So, I asked my self a question, what is the purpose of my life? And I realized that spiritual way of life must be. I started with Reiki, and 12 years until now I'm working with PH of Master Choa Kok Sui.

LIFE FORCE

③ What is prana?

Prana is a sanskrit word that means life-energy. Life energy is a basis of overall existence. If energy flow stops, or blockage is made in the human system life energy, person get sick or loosing his mind.

I found energy healing very interesting at the beginning, because of working with something that is absolutely not measurable

Today, the question if people can heal with energy is already in the past, it is reality. The question that is really important at this moment is where is the soul, where can we find it?

③ What is the soul?

We are spiritual beings. The soul can work through on 3 levels: mental, emotional and physical level. These are tools, instruments of the soul. If some

of these tools are broken, what will happen with the physical body? So, actually, it is not the question of body, it is the question of the soul. The soul is a very subtle energy. If the souls can not express it-self and get on the surface, meaning it can not function through mentioned tools, then symptoms arise, sicknesses on physical and psychological level.

- ⌘ Does this mean that treating the soul brings effects on the physical body?

Yes, exactly

- ⌘ How do you actually heal people?

First, PH is non-touch, no-drug technology.

Second, we feel the energy on energy centers or organs and asses their condition: We have 3 possibilities: normal, congested, depleted.

Third, after this energy assessment, we are doing harmonization, alleviation of energy condition. Through harmonization, the self healing process is activated.

KARMA AS MOST IMPORTANT

- ⌘ Does patient must have medical diagnosis?

It is not necessary, but wanted.

- ⌘ What are the factors influencing the degree of getting healed?

First of all, receptivity of the patient.

Then, ability of the healer, duration of the sickness.

And, one of the most important things is if karmic doors are open for healing, meaning if it is given to the person to be healed.

But I have to say, that those factors are the same in all fields, including the conventional medicine.

- ⌘ What are the most frequent problems?

All kinds of illnesses can be treated, but of course not all can be healed.

Statistically, best results are detected when treating bones, different kinds of pain, stroke, depression, psychological illnesses, addictions, rheumatic, arthritis, posttraumatic treating, tissue regeneration... But, many miraculous healings were done also. I very often meet people that medical doctors could not help, so they gave up further treating.

So, as we said before, it is not about the illness, it is about the soul. Many symptoms disappear after PH. Some people call this a miracle, some call it knowledge. Master Choa said that miracles are laws of the nature that we are not even aware of or we don't know about. We must be realistic.

- ⌘ Did you heal a cancer case?

Not by me, but one of my students has healed a patient with cancer in the last stadium, liver cancer and metastasis on the lungs. After 4 months of PH and complete change of a lifestyle, medical diagnosis was complete cure of the cancer.

HIGHER BEINGS

- ⌘ What would be your advice, how to stay healthy?

The best choice in life is moderation, less meat, pork, physical activities and balancing the stress and stillness. People are often asking what energy

prevails in the world good or bad? If there is no balance between negative and positive energies, universe will not exist. But, we don't have to think about that, but to be relaxed and have faith. Higher beings are watching us and guiding us in all existence.

⊗ What and who are those higher beings?

There is a pyramid with The Higher Supreme Being on the top or GOD. As we know, God is formless, so as we go down the pyramid, frequency is reduced, the form of the higher beings is easier to see: angels, archangels, masters, spiritual teachers...

So, I would ask you to inform the people that they can learn PH in MKD also. It is the most important thing for them to be aware and know to heal them self. Every one of us can be miracle-worker. But, if you are very sick, you don't have the energy to help your self, so you have to ask for help from someone else. Many of our students have been our patients. PH has helped them and they learned it and use it.

It is more important to talk about preventive healing, than miraculous healing. Miracles happen, but not to every one. The question is, what can I do to have a better life?

I will say again: It is the most important thing for the people to be aware and to know that they can heal them self.

⊗ If young and healthy person uses PH, is it a guaranty that he will remain his health?

Young and healthy person when using PH make purifications on all levels: physical, emotional and mental, even we are not aware of this fact. But, we should make a difference between a condition when you don't have pain and healthy condition. Absence of pain, doesn't mean that people are healthy.
